SUMMARY

- Aspiring Software Developer with expertise in App Development and a strong grasp of modern technologies. Eager to leverage my development skills to contribute to innovative and scalable solutions.

EDUCATION

- Jk Lakshmipat University** Jaipur, India
Bachelor of Technology - Computer Science and Engineering; GPA: 5.47 July '22 - present
Courses: Operating System, Data Structures, Design and Analysis Of Algorithms, Blockchain, AR/VR, Mobile Dev. , Computer Networks, DBMS
- Maheshwari Public School** Kota, India
11th and 12th - PCM; 90% and 95% 2020 and 2021

SKILLS SUMMARY

- Development Skills:** Flutter,Dart,java, HTML, CSS, javascript, Unreal;
- Programming Language:** C, C++, Python;
- Soft Skills:** Analytical Thinking, Team Collaboration, Design Thinking, Communication, Quick Learning & Flexibility;
- Frameworks:** Tkinter, Arduino, Flutter;
- Backend Development:** Node.js, Express.js, MongoDB;
- Database Management:** MySQL,Supabase

EXPERIENCE

- Growth Assist** Remote
Full Stack Development Intern (Full-time) May '24 - July '24
 - UI Modernization:** Improved landing interface using **HTML** and **CSS** for better user experience.
 - API Integration:** Integrated third-party APIs to enhance system functionality and efficiency.
- House of Kasya**
Developer March '26 - Present
 - E-commerce Platform:** Built a unified e-commerce system integrating data from multiple APIs.
 - Data Handling:** Performed data cleaning and analysis for better insights.
 - Tech Stack:** PostgreSQL, Node.js, Next.js, Claude MCP Connector.
 - My Work:** sharadmangal.github.io/EcomAnalysisResume

PROJECTS

- Library Management System:** A Library Management System is a software application designed to automate and streamline the management of books, members, and transactions in a library. **Technologies Used:** Java
- Guru - Voice Assistant App with ChatGPT & Dall-E AL Image Generation:** A Voice Assistant App with ChatGPT & DALL-E integrates conversational AI and image generation to enable users to interact using voice commands and receive intelligent responses along with AI-generated visuals.
- MeBlogs - Blogging platform:** A feature-rich platform empowering individuals to share stories and ideas globally. Designed for seamless content creation and discovery, offering a modern and intuitive user experience.
Technologies Used: Flutter, ChatGPT & DALL-E API's
- JKLU Eezy – Campus Utility App:** Built a full-stack campus utility app with features like contact directory, mess management, lost-and-found, complaints, and study materials. Implemented secure login using JWT & Flutter Secure Storage, AWS S3 for file uploads, and optimized REST APIs for smooth and scalable performance.
Technologies Used: Flutter • Node.js • MongoDB • AWS S3 • JWT
- RestaurantOS – Premium Restaurant Operating System:** Built a modern web platform to automate restaurant operations, featuring a fully integrated POS system, live Kitchen Display (KDS), interactive seating planner, and staff QR check-ins. Managed secure user authentication and database architecture.
Technologies Used: Next.js, Supabase, Tailwind CSS, HTML/CSS

EXTRA CURRICULAR ACTIVITIES

- Managed a 35-person student team that plansthe JKLU Marathon.
- Organized a outstation trip for approximately 40students from our college.
- Core of Internal Arrangements (lead team of 35 vollenters
